Department of Physics**

Attainment of the Program/Course Outcome

Department of Physics is trying its best to offer Quality education to the downtrodden students of Kokan area. Through the teaching of the program/ course of B.Sc. part I & part II, an effort is made to enhance the understanding of the basic concepts, fundamental principles, and scientific theories related to various scientific phenomena and their relevance in day-to-day life.

Through the attainment of the programme/Course outcomes, the students empower themselves from department learning to independent learning by the end of II year course. The Physics Programme/ Course Outcomes enabled the students to enhance their critical thinking during the two year period of study and the curriculum stimulates the mental thoughts and assumptions of the students. This helps the students to take up practical work and compare the results with their assumptions, there by leading to accuracy and validity of the practical knowledge. This Analysis leads to take decisions at intellectual, organizational and personal from different perspectives of life.
