DEPARTMENT OF PSYCHOLOGY
Attainment of the Programme Outcome Report

Psychology is very important in Human life. Through the teaching of the program of B.A., the effort is made to enhance the Psychological skill, critical ability, regarding stress management and Psychological sense among the students. An effort is made to enrich knowledge with new ideas and techniques essential for adjustment in physical and mental life , develop personality to face critical circumstances in actual life.

After learning B.A Psychology personality of the students developed in various ways. Through the various efforts department always tries to improve the performance of the students in the examination. The department has slow and advanced learners programme, ICT based teaching learning and also personal counseling to solve their academic, other and stress and related problems of the students. Students can cope up with the demands of various competitive sectors. we use teaching learning methods and evolution methods innovatively.
