Library automation	Services partially automated (Bar Code)
Total number of computers for public access	01
Total number of printers for public access	01
Internet bandwidth/speed	256 kbps

LIBRERIA software is used as the integrated library management system since 2011-12. Since 2016 online version 3.0 of LIBRERIA software is used to operate and maintain library's accessions as well as records. It provides remote access facility to the users. Presently library is partially automated but with all this library is gradually being automated at the remarkable extents.

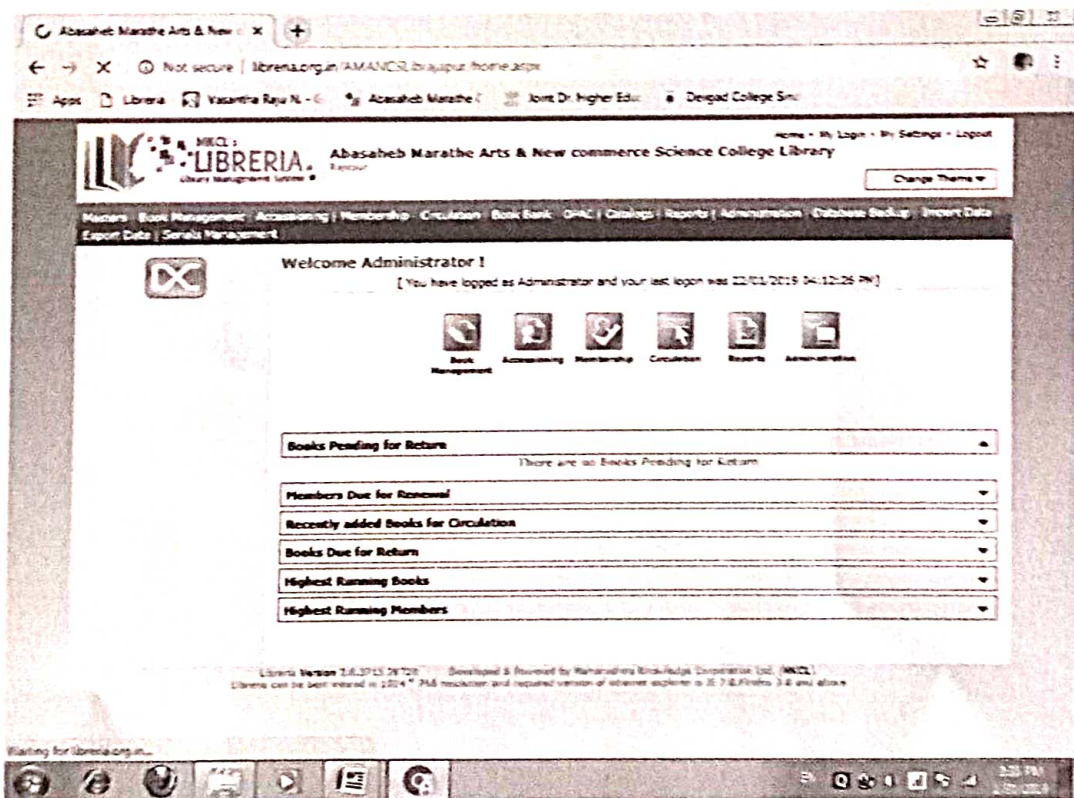

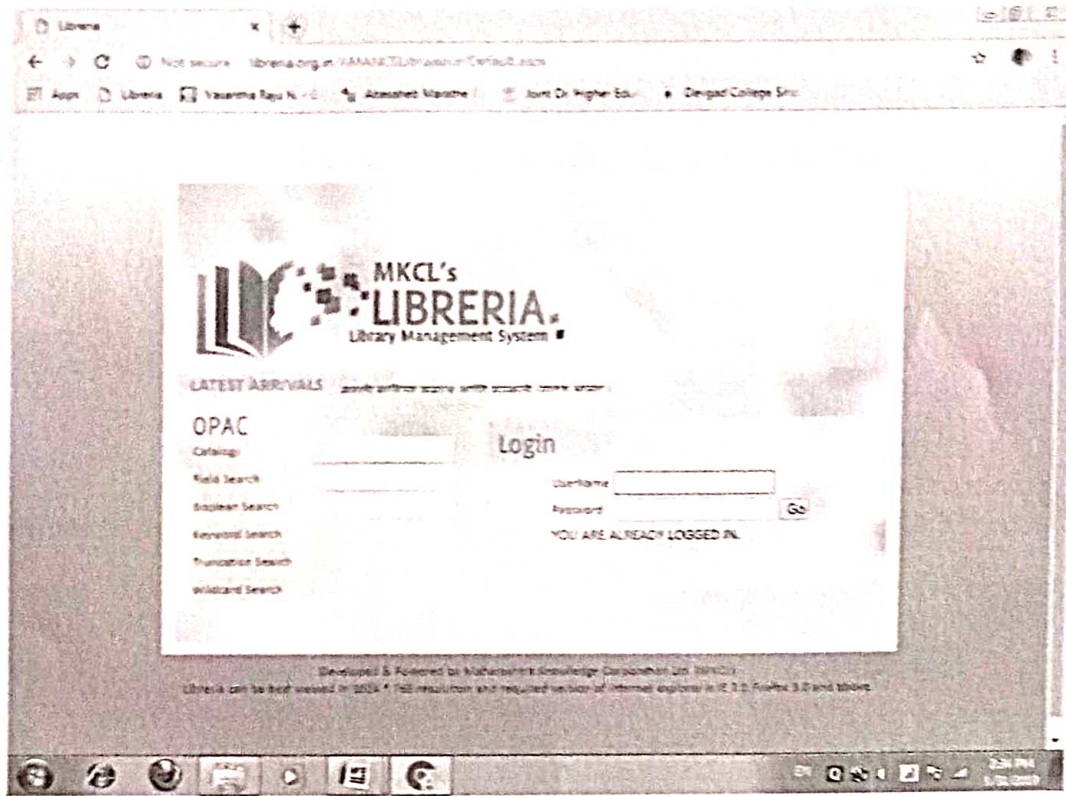

Library Automation: LIBRERIA library software is an integrated, multi-user, multi-lingual package, which computerizes all the in-house operations of Library. It consists many features such as online public access catalogue (OPAC), Book Management, Accessioning, Membership, Circulation, Reports and Administration. This package is user friendly & can be handled / operated by the staff vis-à-vis the beneficiaries of the system without any prior knowledge of computers. The bibliographic information about the collection is made available through library OPAC system. Almost all the housekeeping work is partially computerized. This software is developed by a team of MKCL.

OPAC: These deals with the Catalogues and Searches, the Books present in the Library can be searched on basis of various criteria like: Title, Author, Subject, Place of Publishing, Publisher, Year of Publishing, Classification Number, ISBN No., Editor, Translated Books and Document Type Catalogue, with the exact details and the status of the books present in Library. It also provides the Combinational and Words in Title Search.

ICT zone : we have established IT zone in the library having four computers connected with LAN.

IT zone has following purpose -

1. The free internet facilities made available to the students.
2. The OPAC facilities made available through computers in IT zone
3. The students can access free e books and e journals through these computers.
4. We are providing printing and scanning facilities for students and staff. (200 words)
