Affiliated to University of Mumbai, Mumbai
(Reaccredited with 'B' grade by NAAC/Best College Award by University of Mumbai)

7.1.3 Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 500 words)

There are special types of wastes disposed in the college for which there is appropriate system carrying out. The following wastes are being disposed by the college:

1. Solid waste management

- College carried out solid waste management system on its campus where the solid wastes materials are disposed.
- It is to notice that in the institution keeping a particular place for dumping the solid waste is in its culture. Therefore, every department has followed the system of Solid waste management.
- It is to be noticed that Municipal Corporation of rajapur also has its own solid waste management system which is also valid to the college non hazardous material and simple solid waste material.
- Keeping this in view, the college also manages its solid waste management system. However, there does not exist more waste from college.
- The collect solid waste gets decomposed as it is used to create vermi-composting project.
- In regard of the trash in the form of old newspaper examination answer books, packets and all examination paper materials, the college sells it to be authorized agencies Suggested by authority of college.
- The students and staff are properly guided on proper waste management practices, the NSS volunteers arrange a campus Cleanliness derive.

2. Liquid waste management

- Department of chemistry and other science department have Liquid Waste Management system.

- Waste water from laboratories was collected in one tank made in front of department. The waste water is carried out through the pipeline.
- Liquid waste generated in laboratories other uses is drained to nearly built soak pits

3. E-waste management

- The e-waste is partial in the campus by using the computers carefully and computer-based items.
- The irreparable systems are discarded and the usable parts are used for the replacements.
- The break or outdated computers, toners, electronic equipment, pen drives, batteries and other equipment items are identified and listed out by the college authorities.
- The management of Rayat Shikshan Santha forms a committee that verify the E- waste material and permits the college to sell out the E-waste to a reliable agency that ensures their safe recycling

4. Hazardous chemicals and radioactive waste management

- Institutions have its own system in that hazardous waste from science laboratories were discarded and buried in one pit.
- Liquid waste of laboratories is properly managed waste chemicals, used in the laboratories are disposed by dissolving them in water.
- There are absorbing pits on the college campus which are especially used to absorb liquid waste released from the laboratory.
- Institution does not have any **radioactive waste management system**

5. Waste Recycling system:

- Vermi-compost tank has been built to prepared vermi-compost through waste materials.
- Compost prepared form organic material including dead plant, material such as crop residues, weeds forest litter and kitchen waste.
